1	don't try so has, to be colored." And they re- tainly don't ry so hand to be finney, either, neither did hay succeed. But their was a re- real my absence of anything appreaching val- ari w and the noise which we have been tainly to believe as inseparable adjunct to the "Big one," and there was an absence of a good sence, which was not so refreshing. I wonder why when teers are so many beautiful voices mong the solared people. The Tronstort mus cias a little beyond Kies Moggos Wood's sow us of weaksation, but she very success- nit; manage's a difficult bit in "Pipe Last flows of Edemmer," and her voice shows some careful work.  N xi week the Orchestral Union will give the star once of the first series and I believe it is to be a very gashiomable affair as well as presenting postal musical attractions. Mrs. Kerien will sing for us again had we are to have one of till Mandelssoon trons in which Miss Egbert is 10 play plano. MADGE	insting the ground to Chimmsha. Howevilla- they were pervained from faing the beauties, they were held to their continuous for roadies ands to some of the future tensors.  Flans and specifications are being drawn by the Fortland gualight company's constructing regulary. H. Boomshall, for a new retext hases for sight benchm of the retorie cach. This will double their process: manafacturing capacity and will be completed the ordaing summer in time for the increased fall and winter consensa- tion. The contrary will also put down on Second circuit as the less man and courses it with the mains on First, Front and Taird streets at orce rutervale as will invain the necessary crapply of gas in all maned streets. They will also commences this unternar, to be completed acri spring, a new gas holder of much greater tapacity than the one new laws.  It will be forated on the company's block bounded by ( and D and Twelfth and Thir- tensity levels. When these improvements are
